Lesson	Lesson 1: Predictive Work Scheduling Requirements			Block Type:	Text
Block #	2	Title:	Oregon's Predictive Work Scheduling Law	Style	
Content:				Paragraph	
The state of Oregon passed a Predictive Work Scheduling law (ORS 653.412-653.490) that requires 14-day advanced notice of schedule changes and affects other employee scheduling requirements for retail, hospitality, and food services establishments that employ 500 or more employees worldwide.				Paragraph with heading	x
This law is designed to address unpredictable work schedules that cause disruptions to workers' lives that make it difficult for employees to make childcare arrangements, schedule second jobs, schedule doctor appointments, and even pay bills due to unpredictable income.				Heading	
This training will ensure that all managers/supervisors with employee scheduling responsibilities in Oregon are compliant with this labor law and avoid penalties and fines.				Subheading

Notes: Include storyline block for self-reflection questions			Padding bottom	30px
Image of woman manager. Multiple select question type.			Background color hex	FF631E
Check each statement that is true for how you schedule employees. I post shift schedules less than 14 days in advance. I update shift schedules as needed during the work week. I schedule employees to close one night and then work the opening shift the next day. I ask employees to stay late and work hours beyond their shift, if needed. I send employees home before their shift ends if business is slow. I do not do any of these.			Storyline width	Small
“Incorrect” feedback (anything other than “I do not do any of these” Based on the statements you selected, the Predictive Work Scheduling Act will impact your scheduling practices.				Medium x
“Correct” feedback (select only “I do not do any of these”: With your current scheduling practices, you are on the right track to comply with the Predictive Work Scheduling Act.				Full
